

Dear Valued Customer,

The Alpha-Talbott Utility District's Board of Commissioners has scheduled a rate adjustment to be implemented June 1st, 2025. After an in-depth analysis of this effect while understanding the constraints of the current economy, we must unfortunately adjust our rates to follow legal requirements and bond resolution contracts. The adjusted rates are comparable to the current minimum rates of surrounding utilities which will allow compliance by the District with laws and contracts. This will allow us to better serve you as we continue to upgrade our delivery of water service.

This action has been taken with great reluctance by the Board, and only after much consideration. Stewardship of the District's resources requires our District always be operated on a fiscally sound basis and anticipate future capital requirements. We appreciate your understanding and will continue to work on your behalf to keep rates as low as possible.

Rates Effective: June 1st, 2025 as follows.

Minimum Rate: (2000 gal.)	\$35.00 + tax
All over rate: (2001 gal. and up)	\$ 5.95 + tax (per 1000 gal.)
Morristown Utility Commission Facility Fee	\$ 0.30 + tax (per 1000 gal.)

Example: 2000 gal. (Minimum Bill) 1" Residential Tap

WATER	\$35.00
FACILITY CHG.	0.60
TAX (9.75%)	3.47
	\$39.07

We appreciate the opportunity to serve you.

Commissioners:

Don McGinnis, President

Jimmy Peoples, Secretary

Craig Stansberry, Commissioner
